

Cashier Control Panel

Creating Systems to Control, Power & Integrate Your Business

The **CPI Cashier Control Panel (CCP)** is designed and manufactured by CPI to supply our customers with cost effective, quality, easy-to-install cashier controls. The **CPI Cashier Control Panel** eliminates the need for the cashier to leave the sales area to override lighting controls, get visual confirmation of pump status, and/or actuate fueling shut-off and/or fueling reset. The **CPI Cashier Control Panel** is available in surface or flush mount and is customizable to meet any specific site requirements.

Base System Includes:

- Fueling Shut-off Pushbutton
- Fueling Reset Pushbutton

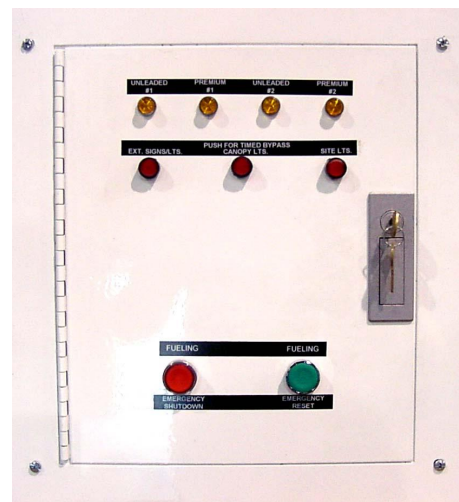

System Standards:

- Complete system is UL Listed product
- Meets or exceeds NEC requirements

Electrical Requirements:

- All connections wired back to CPI System

Note: If additional controls are included in CPI control system, additional status lights, pushbuttons, etc. may be added to Cashier Control Panel.
