Lighting Control System
Now with DIMMING!

Creating Systems to Control, Power & Integrate Your Business

The **CPI Lighting Control System** (**LCS**) is designed and manufactured by CPI to supply our customers with a cost effective, quality, easy-to-install lighting controls solution. The **CPI Lighting Control System** manages interior and/or exterior lighting loads based on a Time-of-Day schedule and/or an ambient light level that is monitored by a solid state light sensor. This system will provide reliable and consistent lighting control.

Standard System Includes:
- CPI-400 Lighting Controller
- Individual, Illuminated Zone Override Pushbuttons
- Supply Circuit Interface Terminal Strip
- Remote Light Sensor Interface Terminal Strip
- All control wiring

System Standards:
Complete system is UL Listed product
Meets or exceeds NEC requirements

Electrical Requirements:
120V, 15A Supply Circuit
30A Standard Contactor Switching Capacity (higher capacities available upon request)
Emergency Override Switch rated 125V, 15A
